T688

A multi-use powerboat

TECHNOHULL® T688 (7.0m) is a multi-use economic powerboat combining smooth riding with excellent performance. Having restricted the fuel consumption to only 0,8 lt/nm this powerboat promises great duration and economy on offshore trips. Her comfortable deck and spacious storage rooms make T688 a splendid choice for every use. Being able to reach a top speed of 56 knots, T688 will undoubtedly satisfy those who seek high performance too.
